## INTRODUCTION

During the 1970s, members of the San Diego Genealogical Society abstracted the original Coroner's Inquest papers in the Archives of the San Diego Historical Society at the Serra Museum. Since that time, the historical society has moved its archives to Balboa Park in San Diego where the original papers may be viewed. For some reason not known at the present time, the abstracters did not include the cause of death or any perpetrators named in these papers. We hope to be able to include this information sometime in the future and also add a comprehensive index that would include not only the names of the deceased but also the witnesses and officials. Meanwhile in order to help researchers, we have included an alphabetical index to the deceased at the back of this book. Please note that the numbers after each name refer to page numbers at the top of each page.

INTRODUCTION

During the 1970s members of the San Diego Genealogical Society abstracted the original Census's original papers for the residents of San Diego. The Society in the early 1970s. Since that time, the abstracted records have moved to archives in Harbor Park in San Diego where the original papers may be viewed. For some reason not stated at the present time, the abstracts were not included in the death or any other records in that county. We hope to be able to include this information in our records in the future and will contact you later that would include not only the names of the deceased but also the names and officials. Members in order to help researchers, we have included an alphabetical index to the deceased at the back of this book. Please note that the numbers after each name refer to page numbers at the top of each page.
