SISKIYOU COUNTY  
MARRIAGES  
1852 THRU 1910

So ought men to love their wives as their own bodies. He that loveth his wife loveth himself.

For no man ever yet hated his own flesh; but nourisheth and cherisheth it, even as the Lord the church;

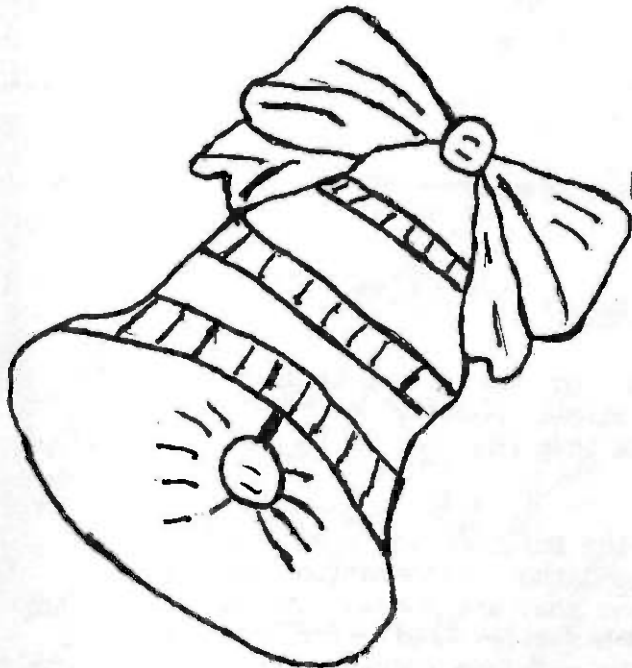

For we are members of his body, of his flesh, and of his bones.

For this cause shall a man leave his father and mother, and shall be joined unto his wife, and they shall be one flesh.

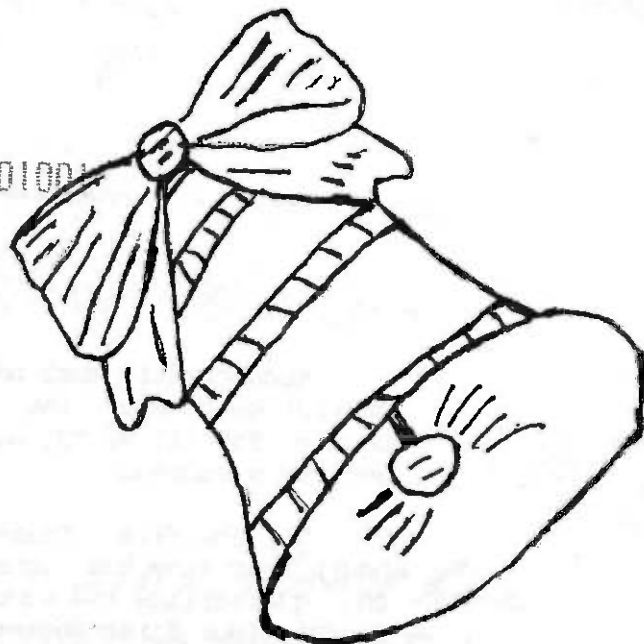

This is a great mystery; but I speak concerning Christ and the church.

Nevertheless, let every one of you in particular so love his wife even as himself; and the wife see that she reverence her husband.

## PREFACE

Much credit must be given to the first officers and charter members of the Genealogical Society of Siskiyou County for all of the hard work that they put in to make our Society a success.

To the first Editors of the Bulletin for the countless hours that they had to give, to gather information to make the quarterlies the success that they are today. To Caraway George (our first Editor) and his wife Louise for the many hours that they spent copying the marriage records and to all the members that typed and edited those records. Without your perseverance, our first book to be published, "Siskiyou County Marriages 1852 thru 1910", could not have become a reality.

Siskiyou County is rich in heritage for many a lost ancestor can be found here. Men who came west searching for that elusive yellow metal that would make them wealthy and the women that followed is all part of that heritage. These stalwart pioneers came by prairie schooner, horseback and foot, following the trails that had only been marked by the foot prints of the naked savage and the denizens of the wild. Many came by boat, landing in San Francisco then north to Siskiyou County.

The magnificent deeds of those pioneer men and women will live deep within the hearts of their children and their children's children. They have left behind them a living monument of lasting glory which shall grow ever brighter as time marches on.

Putting this book together has been a labor of love and a dream come true for many of the members of our society. A special thanks is given to all that helped. To begin to list the contributors is impossible because one might be forgotten and that is not our intent. They know who they are and we would like to give our thanks for helping make that dream come true.
