— Great Register of Siskiyou County, 1866-1878, cont.	20
Family Generation Cataloging System	22
Crossing the Plains in 1852	23
Place Names in Siskiyou County	26
— Evergreen Cemetery, continued.	27

Meetings are held the last Friday of every month at 8p.m. in the Siskiyou County Public Library, 719 Fourth Street, Yreka, Calif. Annual Society membership dues are \$6.00. To join the First Families of the Pacific States auxiliary, add \$2.00.

Information is given as it was compiled, with spelling of names and places as they were in the original record. Some errors and omissions may be inevitable, and we request that these be brought to our attention for correction. This Society, the Editor, and all contributing compilers do not assume responsibility for errors in fact and judgement, except their own. Established errors will be corrected as soon as possible.

PRESIDENT'S MESSAGE

Excitations for our country's bicentennial are in evidence all about us. Exciting projects of lasting value are planned throughout the land. What more appropriate time to renew our personal genealogical efforts? Let's join in the spirit of '76!

The Genealogical Society of Siskiyou County has a plan to aid and encourage our member's research endeavors. At our August meeting, the members voted to alternate program meetings with workshop meetings. During workshops the good facilities of our Siskiyou County Library and our exchange bulletins will be easily accessible.

Another great help is the Historical Genealogy class being offered by the College of the Siskiyous and taught by Ruby Lacy, our able researcher friend from Ashland, Oregon. This class meets every Thursday night at 7:00 P.M. in the Siskiyou County Library, Yreka. The class came into being last spring semester at the request of our society and particularly through the efforts of Bernita Tickner.

On behalf of all our members I want to thank the Society officers of 1974-75. They are: President Al Letcher, Vice President Alice Colburn, Secretary and Press Chairman Jo Kinney, Treasurer, Ellen Walters, Editor Wilogene Simpson and Librarian Bernita Tickner.

A reminder that dues for 1975-76 were due in July. According to the Constitution of the Society, delinquent members will be notified at four months and dropped from membership rolls after six months delinquency.

Alice Colburn

Alice Colburn

President 1975-76

EDITOR'S MESSAGE FOR BICENTENNIAL 1976

As a special contribution from the Genealogical Society of Siskiyou County to our nation's Bicentennial observance of 1976, we will suspend printing the regular material for our bulletin for next year, and instead have each of them devoted to your Revolutionary War ancestors.

We are asking each of you to send as much as is possibly known about your ancestor who served his or her country at this time, from National Archives military, bounty and pension records, Daughters of the American Revolution records, marriage, Church, state records, etc., as much about this person as is known, and then briefly trace the family down to yourself.

There is no time to lose in gathering these records if you have not already done so, and preparing them for publication in our quarterly bulletins for next year, for our Bicentennial effort.

If you have more than one ancestor who served in the war, so much the better, and we will welcome and publish all of them. Please send a separate article about each one, and typewritten if possible. However, we will be happy to have them handwritten also.

When ready, please send to Editor Wilogene Simpson, P. O. Box 225, Yreka, California 96097.

DETERMINING YEAR-MONTH-DAY DATA FROM BIRTH AND DEATH DATES

This procedure was originally printed in the Knox County, Illinois Genealogical Society Quarterly, Vol 2, July 1974, No. 3, and next in Jacksonville, Illinois Area Genealogical Society News Letter, and submitted to us by member Peggy Whipple.

- 1 Set down death-- year, month and day expressed in numbers, as:

Death: Aug. 20, 1973		1973	8	20
Birth: Jun. 10, 1901	subtract:	1901	6	10
	years:	72	2 mo.	10 days

- 2 The arithmetic becomes more involved when you have to "borrow" days, as:

The formula: 1 month equals 30 days 7-----30 days

Death: Aug. 20, 1973		1973	8	20
Birth: Jun. 30, 1901	Subtract:	1901	6	30
	years:	72	1 mo.	20 days

- 3 To "borrow" a month:

The formula: 1 year equals 12 months 2-12 mo.

Death: Aug. 20, 1973		1973	8	20
Birth: Sept. 10, 1901	subtract:	1901	9	10
	years:	71	11 mo.	10 days

- 4 Given a death date and year-month day, one can reverse the process to find the approximate birth date as:

Death: Aug. 20, 1973		1973	8	20
Age: 72 years, 2 mo., 10 days.	Sub-	72	2	10
	tract:	1901	6	10

Approximate birth date: June 10, 1901.

This will not be the exact day of birth because 12 months times 30 days equals 360; whereas there are actually 365 days, plus the extra day in leap year.

This is an approximate time period to look for courthouse records, for death certificates, filing of wills, administration of estates, changes in deeds, or newspaper obituaries.

Continuation of SISKIYOU COUNTY, STATE OF CALIFORNIA CENSUS OF 1852.
 Compiled by Vada McRae Letcher from microfilmed copy of original made
 in 1936 under the direction of The Genealogical Records Committee, DAR.

FAMILY GENERATION CATALOGING SYSTEM

This numbering system of cataloging people uses a letter alternately with a number, such as, A1b3. After using and discarding several methods, this way seems to be the most logical and easiest to follow. Each person has his own individual number which indicates where he is in his family line. For example, the 3 in A1b3 indicates that he is the third born in the 4th generation, the b that he is the second born in the third generation, the 1 that he is the first born in the second generation, the A that he is the first born in the first generation. In another explanation, consider yourself as 3, your parent as b, your grandparent as 1, and your great grandparent as A. It follows that your number would be A1b3.

Taking my Hurst line as a further explanation:

- A Henry Hurst born in 1679, had three sons
 - A1 John Hurst, first son
 - A2 William Hurst, second son
 - A3 James Hurst, third son

Since we are following the family line of William Hurst, the second son, all subsequent numbers will precede with A2.

- A2 William Hurst, born, died, had six children:
 - A2a John Hurst, born 1732, etc., had eleven children:
 - A2a1 Mary Hurst
 - A2a2 John Hurst
 - A2a3 William Hurst
 - A2a4 Henry Hurst
 - A2a5 Hannah Hurst
 - A2a6 Nancy Hurst
 - A2a7 Elijah Hurst
 - A2a8 Abraham Hurst
 - A2a9 Leah Hurst
 - A2a90 Elisabeth Hurst
 - A2a11 Beverly Hurst
 - A2b William Hurst
 - A2c Elisabeth Hurst
 - A2d Judith Hurst
 - A2e Hannah Hurst
 - A2f Nancy Hurst

This is a simplistic explanation as the families are each fully filled out in sequence as they occurred.

Geraldine L. Deter

CROSSING THE PLAINS IN 1852

(A true story written by Flora Violet Pitman Cummins as told to her by her mother, Cianda Noel Davis Pitman. Submitted by Caralee Kay Butler Scala.)

In 1848 the news spread rapidly to the East that gold had been discovered in California. Many people went wild over the news, ready to set out without provisions and money. Many peaceful homes were broken up. Men, women, and children lost their lives. Some reached California successfully but without money and what could they do without that? Some made their fortunes and returned to the East, thus encouraging others to try their luck.

We were living in the beautiful little town of Mt. Carroll, Illinois, up to this time with no thought of abandoning our little home. One day father came in and said a great strike had been made and we must make preparations for going West at once. We may do well out there and make more in one month than we can here in five years. We sold our little place and May 22, 1852, set out for these unknown regions.

We went first to St. Louis, then took the steamer to Council Bluffs (now known as Omaha). We bought our ox team and covered wagon, carriage and horses, cooking utensils and provisions here. We were delighted to start for the beautiful land of gold and enjoy ourselves camping out. There were forty wagons in our train.

The first night we camped out I did not enjoy sleep very much because I was afraid of snakes and wild animals. The wagons were drawn up in a circle and our camp placed within to protect us from the Indians, as they were roaming everywhere about the plains. In the morning I awoke almost frightened to death. Looking in the distance I saw a fire, as I thought, having heard of prairie fires. We were all excited, ready to go back, when to our surprise the sun rose a little above the earth. We children questioned the older folks as to how the sun could come out of the ground, and as their answers were satisfactory, we asked no more questions, as day after day we saw the same occurrence.

For days we traveled on, nothing of importance happening. I became so tired of treeless land, that I thought I would rather live in the mountains or on the ocean. There were no mountains to be seen, only little mounds. The plain was covered with sage brush and what was known as prickly pears. Beautiful flowers were everywhere, but they were odorless. How the sun beat on our heads! No shade but the canvas-topped wagon.

One day as we were traveling along, a thunder storm arose to our dismay. The lightning flashed all about us and the thunder rolled, peal upon peal, until we were almost deaf. The horses

reared on their hind legs, almost upsetting the carriage. All of us girls climbed out the back and got into the wagon drawn by oxen. Mother remained in the carriage, paying no attention to the dancing horses. After the thunder and lightning ceased, great drops of hail, as big as marbles, beat down upon us. By night we were drenched to the skin and almost frozen. I have never before or since spent such a day in my life as that day.

As we were traveling along we saw Indian mounds in the distance where they were buried. They did not bury them like we do; they stood them up and covered them with dirt in that position. The next place of interest we came to was Prairie Dog Town. Little dogs were running all about the ground. It looked like a field of cooked hay. But by their mounds of dirt were holes where they lived. The dogs were very small and brown. They sat upon the mounds yelping, as we came along.

In the distance we saw Independence Rock, a name given because the first campers came here on the Fourth of July. We camped all night by this rock, which was flat on top. We had our musicians with us, so we had a fine dance upon it, dancing six sets. We had as nice a time as we have ever had in any town. They were all lively and gay. We danced all night, traveling all the next day and sleeping in the bottom of the wagon.

Not far from here was Chimney Rock, called that because of its shape. While we were here the cholera broke out. Many were stricken down but we were lucky for none in our train took it. We next came to Devil's Gate. On one side was a high bluff, from which a man had fallen losing his rifle. Great herds of buffalo lived upon this plain. We were in danger all the time, for fear they would attack our train, but again Providence smiled on us.

When we came to Snake River, my sister became sick and we were delayed for a few days. Snakes were all about us, on our beds and running everywhere. The grass was very tall; therefore, we could hardly see them. As long as we stayed here, I was afraid to step anywhere in the grass.

When we came to Salt Lake, we bought salt and sugar of the Mormons. The next place of importance was Pacific Springs. Two small creeks had their heads in the same water, running in opposite directions. One was called Pacific and the other Atlantic. The water in the spring was hot and we used it to wash dishes. While here, mother took sick, sister being well by this time.

This side the Rockies we placed our camp. On one side of us was a large bluff and on the other Tule Lake. Down about this lake the Modoc Indians lived. We saw a number of them wandering about, decked in the feathers and war paint. We were afraid they would attack us at night. We drew up the forty wagons in a circle, placing our camp within, as before. The men with their guns and ammunition

sat up all night to guard the camp, but the Indians did not come.

The road up the Rockies was very rough and steep. We had to cut large trees and tie to the back of the wagons when we went down the mountain. We intended going to Sacramento but were misguided and took the wrong road. Nine packers came from Yreka to meet us but all were killed by Modocs except one. As we passed along the road, one man lay by the roadside with his head cut off, but we could not bury him for fear they would attack us.

On the last day of August we arrived at Yreka. Mother lived just five days after our arrival, the trip being too much for her. We lived at Yreka for some time, which was a very small place at that time. The partitions in the houses were made of canvas. We lived in a house that the packers had been using, which had a dirt floor, canvas windows and partitions.

Everything in the grocery line was very dear. Flour cost \$50 a sack, salt \$16 an ounce, meat 25 cents a pound, potatoes 25 cents a pound, and eggs 25 cents a piece. Gold dust was placed in one side of the balance and salt in the other.

We lived for some time in Fort Jones and then moved to what is known as Old Etna, which contained one store, one mill and a hotel.

#

The Noel and Kimball families consisted of James Kimball, his wife Mary Noel Kimball, John Noel, Mary Noel, Tryphena Noel, Cianda Noel, Harriet Kimball, William Kimball.

A couple of other families who came in that covered wagon train were the John Smith family (John Smith, Minerva Smith, and daughter Anna Smith Johnson Howell. A daughter Clara was born in Etna.) The other family was the Leonard family who lived in or near Quartz Valley.

John Noel married and of that union were Tillie, Dent, William, Frank and Charles.

Mary Noel married William Davidson. Of that union were Narcissa Davidson and James Davidson.

Tryphena Noel married Harry Dawson. Of that union were Hattie, Elsie, Eva Lu, William T., James, and Edward. Later Tryphena married James Cicero Campbell. Of that union were Lettie, Charles, Minnie, Ollie, Arthur and Stella.

Cianda Noel married James Davis. Of that union were Ellen, Sara Frances, Lorenzo, John and Eugene. Later Cianda married Martin Butler Pitman. Of that union were William Martin, Emma Lorena, Valnettie May, Alice Jane, James Lester, Lois Ann, Flora Violet, Harry, Alferata.

Harriet Kimball married William Morgan. Of this union there were Nellie, Ida, Emma, George, Annie, May and Viola.

William Kimball married Augusta Smith. Of this union there were Minnie, James, Carrie, and another boy, George.

As told by Cianda Noel Pitman

PLACE NAMES IN SISKIYOU COUNTY

Place names in Siskiyou County, some of which are now in what is known as Modoc County, were excerpted by Edna Kankas from "California Place Names" compiled by Erwin Gudde, printed by University of California Press, Berkeley and Los Angeles, 1949.

ADIN Named by residents in 1870 for Adin McDowell, a native of Kentucky who settled in Big Valley in 1869.

APPLESAUCE CREEK The name became known when in the 1890's mammoth quartz ledges were discovered in the vicinity, also from the favorite expression of a Mr. Sullivan who had a cabin near the mouth of the creek. When he was lucky at cards he was wont to exclaim, "That's the applesauce!"

ASH CREEK So named for the presence of volcanic ash.

BARTLE The name was applied to the station of the McCloud River Railroad in 1904. Abraham and Jerome Bartle ran a cattle ranch in the Shasta Valley and built a resort at what is now known as the McIntosh place.

BEER CREEK Several surface waters are named for the effervescent drink, probably because of their bubbling waters. On the Seiad and Sawyers Bar atlas sheets Beer Gulch appears with other mouthwatering names, Spirit Lake, Whiskey Creek, Tea Creek, Applesauce Creek, Sauerkraut Gulch.

BESTVILLE The one-time metropolis of Salmon River was named for Captain Best, who in 1850 led the first party of prospectors into the wilderness.

BLACK BUTTE The peak was so known in the 1850's because it was "black as the darkest iron ore."

BOGUS Like humbug, a common term for fake, sham used by disappointed prospector's mainly for creeks. The district in Siskiyou drained by Big Bogus and Little Bogus Creek came by its name from the operations of counterfeiters who had a furnace in a thicket near a spring. Bogus post office was listed in 1880's.

BOLIVAR LOOKOUT The ranger station preserves the old name of what is now called Craggy Peak on the Etna Atlas sheet. The name of the South American Revolutionary leader, Simon Bolivar, was often used for place names in the United States.

BREWER CREEK Apparently named for a professor who identified the weeping willow, *Picea brewerianan*, in the Mount Shasta region.
