Meetings are held the last Friday of every month at 8 pm in the Siskiyou County Public Library, 719 Fourth Street, Yreka, California. Annual Society membership dues are \$6.00. To join the First Families of the Pacific States auxiliary, add \$2.00.

Information is given as it was compiled, with spellings of names and places as they appeared in the original records. Some errors or omissions may be inevitable, and we request that these be brought to our attention for correction. This Society, the editor, and all contributing compilers do not assume responsibility for errors in fact and judgement, except their own. Established errors will be corrected as soon as possible.

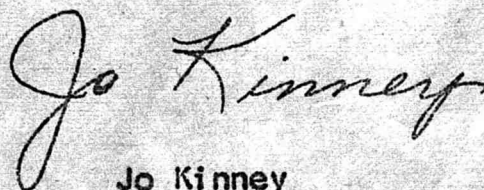

PRESIDENT'S MESSAGE

As another year ends I wish to personally thank all those who have given of their time and efforts in making the past two years a success. To those who have given us interesting programs and members of the library staff without whom there would be no bulletins.

Mr. James Cumming, who gave us a program in February, will conduct a Workshop on Saturday, April 15 in the Pacific Power & Light Company's meeting rooms. Members and all interested persons are urged to attend this worthwhile event and participate in sharing experiences in the search for their "roots."

The new Mormon Church in Etna as well as the Etna City Library will shortly have a new microfilm reader for the use of all those in that vicinity. It has also come to our attention that the Mormon branch library in Medford is again open for the use of their facilities.

A reminder to all members of the books, microfilm and pamphlets on genealogy available at the Siskiyou County Public Library. The Society quarterlies are also there for the perusal of non-members as much valuable genealogical information has been compiled to date, among which are many records of Revolutionary War ancestors, cemetery records, voter's lists, census records, Homestead declarations, etc.

Jo Kinney
President 1976-78

An interesting record of a miner's life on Salmon River fifty eight years ago. Published in the March 18, 1909 edition of The Siskiyou News.

Away back in the 50's a diary was found by a traveler in the mountains. It was a little memorandum book of about a hundred pages. He brought it to Yreka and gave it the late Dr. F. G. Hearn, and it is now in possession of Miss Minnie Hearn who has kindly permitted its publication by The News. It will be of absorbing interest to our pioneers as well as the younger generation.

On the inside of the front cover is the following inscription: "Salmon River, Klamath County, California. June 17th, 1851"

On the opposite cover is written the following: "James S. Trooks Diary, Washington City, March 6th, 1847." The owner probably wrote this when he bought the book, and neglected to start the diary until four years later when he found himself 3,000 miles away from home in a wild and strange country. The following is his diary just as he wrote it:

June 17, 1851, 4 o'clock p. m., finds me in my hut in Harris canyon, Salmon river, Klamath County, California, U. S. A., where I have been camped ever since I came on this river, excepting the first week. I am well and have been well, though I have seen hard times on account of the scarcity of food. For about the last two weeks in March and three in April I suppose that 500 men subsisted upon what 50 men would have alone consumed in that time. Flour was shared out by the single pound at \$2.50, and for the last eight pounds I paid \$3 a pound. O want to see no more such times as those were.

I think the wintry or wet season is about over now, and still the river is up and the snow lies on the mountains. Day before yesterday we had a thunder shower and some hail. The days are very warm and nights rather cold. I have been prospecting today and as usual found nothing. I have not made my board for the last three weeks. I cannot find a place that will pay 5 cents to the pan/ I have cleared about \$200 since I came on this river, which was March 9. I spent all last winter traveling which was, I say greatly to my loss.

On November 23 last, I in company with Douglas left Trinity river for Humboldt bay and, after being out in snow and rain and almost frozen and starved to death, I shot a deer. On the morning of the sixth day we got in, I remained two weeks and then started for San Francisco. When going out of the harbor I was wrecked in the barque Jane of Portland. Then I went on board the E. Farnum and started for San Francisco on January 1, 1851. Arrived at port on the ninth, stopped two days and then went to Sacramento. On January 11 started for Salmon Falls mine on the

American where I remained four weeks and then returned to Sacramento. Left for the more northern mines February 11. Arrived at Weaver and stopped a day and then started for this river. From March 9 I stopped here until the middle of April, when I left for the Shasta diggin's. Stopped there a week and not doing anything I returned to this place, and at this time I do not know what to be at. I can find no place where I can make five dollars per day.

June 13, 1851. Warm, clear. I am doing nothing as usual. I am offered a chance in the Sailor's claim for half I make. Flour is worth 25 cents a pound, pork 35 cents, beef 25 and 35, sugar 40, &c.

June 19, 1851. Went down to Bestville, &c., to see if there was any chance to get in a claim. No success. Got home at dark.

June 30. Weather is clear and warm and the river is falling gradually. When I left Sacramento for Salmon Falls I deposited my letters, papers, a few specimens of gold and other things at the hotel I put up at on Third street between I and R streets in the charge of J. Lovegrove, calculating to send for them in a few weeks or to be back for them myself, supposing them to be safe. But when I returned he had sold out his stand and left for parts unknown, and my things were nowhere to be found. I inquired at the postoffice for a note thinking he might have stored them some place but found nothing.

Saturday, June 22. Came home this morning, took a nap, walked down to Laup's camp, read papers and returned at 4 p. m. Am well and hearty, though rather distressed in mind. Shall work this week.

Sunday, June 29. Well, worked hard all week and made \$100. Yesterday noon while I was at my work a fire broke out in Mr. Cook's camp, and had it not been for the men at work opposite who came just in time to extinguish it, it would have burned to ashes in two minutes. The men down about where I am at work say I have found out their diggin's and tell me not to say anything for fear of a rush. The river is falling fast.

July 4. Warm, clear. Holiday for all. Spend the day within tent. Well, times are dull.

Sunday, July 6. Warm. Have been to Bestville today. Nearly all the prospected claims have failed. Frank, Jim Fowler and myself have bought a long-tom today and intend to run it this

week. Old Uncle Adam Pence is going out towards the valley this week. A great many miners are leaving because of the failure of their claims. I think I shall remain all season. Anxiously awaiting the arrival of the express.

July 8. Worked on the Rich Bar. Made \$6 apiece.

July 10. Made \$55 apiece. Washed one pan of \$46.

July 11. Made \$97 between the three. At noon bought out the Sweed and Irishman for \$24, and at night Jin Fowler sold to Frank and myself for \$5.

July 12. Frank made \$17 for us and I worked with Charlie in his claim.

Sunday, July 13. Went down town and got food, &c. Cloudy, cool and foggy.

Friday, July 18. Cloudy, thunder and rain at night. Indians have murdered six men at the ferry on the Klamath. We have had a great fire on the mountain side here.

Monday, July 21. Warm and windy. Frank and I made \$30 this forenoon and \$12.50 this afternoon.

July 30. Clear, warm, little wind. Yesterday thunder and lightning, no rain. Made \$16 within the last two weeks. I have had a large "bile" on the underpart of my left big toe. 'Tis over now.

August 9, 1851. This forenoon made \$10. I have here \$3000 and at San Francisco \$200. Salmon are plenty.

August 17. Cloudy and rain. Went fishing. Nights rather cold. Very few on the river. Digging on Jack Ass creek below Bestville made \$25 last week.

August 31. Went up the gulch day before yesterday and came back last night. Made \$30 last week.

September 5. John and I washed 100 pans this forenoon and got \$4. For the last six or eight days it has rained and snowed on the mountains.

Sunday, September 15. Warm, clear. Made 50 cents apiece the last four days. I am engaged in reading "The Mysteries of the

People."

Saturday, October 12. Warm, clear. Have had two weeks of cloudy weather. Have 100 pounds of flour and will buy more in a few days. Have new with me \$660, and sent H. T. \$200.

Sunday, October 26. Well, have had good weather. Today it is cloudy, rains alternating all day. Claim pays a little. John Chapman works in my stead. Made \$40 last week.

Sunday, January 18, 1852. Has been clear for two weeks. The two weeks previous it was cloudy, snowy, foggy and rainy. The snow along the river was two feet deep. When the rain fell upon it, the river rose very fast and higher than it had been during the last eighteen months. I have not been doing much for the last 4 weeks, having now but \$900. "David" has gone down the river for provisions, &c. Burns, Jim, Thursdy and Frank went to South Fork prospecting day before yesterday. Bought a piece of gold from Jim Wilson Avill and gave \$6 (one fifth premium). Made 35 dollars at this (old) place last week. I should be very glad to send some money to my sister if communication would permit.

February 8, 1852. Weather is still fine. Made \$80 last week and prospect is good. Think of hiring some hands in partnership with Jessup and working this bar this spring. Four weeks since Mat, in the canyon, had his legs fractured by a large, falling stone, and last (next line obliterated by a fold in the paper of the original, not legible from microfilm copy) between the ankles and knees. Mat is nearly well and Bob is getting better. Wrote uncle this evening.

March 11. Have had, for the last three weeks, a bad swelling on my left cheek, caused, I am today led to suppose, by an ulcerated tooth. Last night I was unable to sleep from the effects thereof. Today it voluntarrily opened and I was much relieved. I had supposed it to be scurvy in the teeth and was wishing for an opportunity to go to Scott Valley where I could get some vegetables for a change of diet. Fortunately I was mistaken as to the disease. We have had bad weather for the last two weeks--all snow, which is 15 inches deep on this flat. There is a great quantity of it on the mountains. On the first day of this month (March) some provisions got in from Trinidad over the big mountains. The snow was about 2 feet deep. Now it is 6 or 8, and the trail will not be open for 3 or 4 weeks. Yesterday and last night the clouds broke away, and the wind changed and came from the north and today it is clear and warm and I think the

storm is over for awhile. I have now about \$1200 here. Mat is well and Bob is improving. Last Saturday Marshall shot a wildcat. Three weeks ago in the canyon Tom Murray shot an otter, and some time about Christmas Andrews, the Englishman, set a spring gun and got a real grey fox. Very few deer have been killed this winter.

March 24, 1852. The river is up and I think will remain so till the snow is off the mountains and winter is over. Yesterday Jimmy White and Mat left, and tomorrow Mrs. Burnell and Mrs. Thursbury leave for the bay. Last week I made a trap, set it and caught an animal much resembling a squirrel, differing only in its being larger and the tail having black and white marks around it. No name. Some say skunk, some coon, some a large prairie dog, &c. Will write and send uncle \$250 by Mrs. Burnell. Deferred.

May 10. Clear, warm. Yesterday, heavy rain. Two weeks since we had a little snow and rain. Have not done much. Am well. None sick. Provisions are cheap. Liquor is 25 cents per glass in the canyon. Still on the old bar, six or seven. About one hundred men are on the river. Not much being done.

May 20. Cloudy. Had heavy shower three days since. A very large wolfe was shot opposite camp two days ago. James Wilson is going to packing this season, and will start on his first trip tomorrow. I took a cold bath in the river two weeks ago and caught cold and am not clear of it yet. Will send for my letters by Jim.

June 1, 1852. Sold my interest on this bar for \$250. J. Jesup sold for \$200 cash. There are not many miners here now. Provisions are high. Have \$1500, and no place to work.

June 10, 1852. Prospected the gulch of Eddy.

June 17, 1852. Have made but little this week.

Monday, June 21. Still working in this gulch. Made \$7 apiece today. After supper, while lying down by the fire to rest, a Mr. Bruin came within 20 paces of us, raised himself up on a log and looked down on us for his supper. Mr. Rice got the gun and gave him a half ounce of lead in the breast and heart. The bear ran 15 steps off and fell dead as a mackerel. We skinned him and hung him up by dusk.

June 23. Made \$9 apiece. The Indians are getting very bad. A party started down from here to meet another one at Orleans.

Jar, intending to burn all the ranches and get the two Indians that killed "John." They burnt two ranches, killed some Indians and made a treaty.

July 8. Clear, though rather cold and windy. Have almost given up the creek. Made \$5.50 yesterday. They had three fights down town on the Fourth. I had a good dinner with Mr. and Mrs. Luddy. The boys above borrowed a gun and killed a spike buck and gave us half. I would go to East fork to mine if I had my money. I have now about \$1350 outstanding.

July 18. East fork. Clear, warm, have been prospecting and on Friday, the 19, left before light for North Fork of Salmon again. Arrived at 4 p. m., Sunday.

August 10, 1852, finds me in the Eddy Gulch again with Mr. Rice, where I have been for the last three weeks. Last week we did well--\$12 per day. I found one piece that weighed \$22.70. Sunday I went out bear hunting. Yesterday in panning out we got a small stone about the size of a half ounce ball which is covered all over with hieroglyphics. It is a curiosity. Am well. Made \$4 today, and yesterday \$5 apiece.

Shasta City, September 18, 1852. I arrived here yesterday eve from N. F. Salmon which place I left last Monday morning the 14th. Am well and will take the stage for Marysville tomorrow. Very hot.

September 19. Started at 6 p. m. for Marysville and arrived next morning at 7 a. m. After looking about took the boat at 10 p. m.

September 20 and 21 I spent in Sacramento and on the morning of the 22d I returned by stage to Marysville. I had enjoyed excellent health. Took lodge at the United States hotel. Have bought \$2000 worth of goods.

Sunday, October 3, Marysville. Had a little sprinkle of rain yesterday and a small fire today. Wrote a letter to my sister. Start tomorrow.

In the back of the diary is a bill which will give an idea of what prices were in those days. Following is the bill:

Garfield Bill.		
200 lbs flour	a .50	\$100.00
25 "	pork a .60	15.00
30 "	beans a .45	13.50
46 "	sugar a .35	16.10

3 pr. socks a 1.00 \$3.00

He closes his record with the following memorandum:

I have sent today (May 19)	\$200.00
Have now, July 27th, on hand	240.00
Have now, April 4th, on hand	1325.00
June 2nd, 1852	1500.00
August 10th	1600.00

JAMES S. TROOK,
Washington City.

T. H. "Mike" Brown, Sheriff of Humboldt and old Klamath Counties

T. H. Brown, or "Mike" Brown has been again elected Sheriff of Humboldt county, though a Democrat. The average Republican plurality in the county was about 2000 at the late election, yet Brown had a majority of 917. He outranks any Sheriff in the State in length of service. Mike was formerly Sheriff of old Klamath county, which included the Sawyer's Bar and Orleans Bar country, he being a resident of Orleans Bar. Klamath county included Del Norte county at one time, and voting a removal of the county seat from Crescent City to Orleans Bar resulted in a division of the county. Klamath then being too small to sustain the expenses of county government, went out of existence, half the territory being annexed to Siskiyou and the other half to Humboldt. A few years later Happy Camp was also added to Siskiyou from Del Norte by desire of the people residing below Seled on Klamath River. ((This article was in the Yreka Semi-Weekly Journal of Dec. 2, 1902.))

####

Thank you, Maurine Swafford, for the gift to our Genealogical Society of many back issues of the Genealogical Helper. We are also indebted to Mrs. Selby Santmyers of La Mesa, California, for her valuable contribution of the book, Catholic Church Records of the Pacific Northwest. Our genealogy library is growing. Donations are gratefully received.

FOREIGN MINERS LICENSES

The operations of the law taxing foreign miners is gradually losing its importance every year, rendering it of no great benefit, over and above expense of collecting, towards the revenue of the State. By the technicalities of lawyers many Chinamen may carry on mining, and be in the very act until the collector is seen in the distance, when they drop the pick and shovel, jump out of the claim and answer the collector "me no miner." The only way to catch them is to force the payment of the foreign tax from all Chinamen in the mines for there is no show to prove it on them by another Chinaman. The best way, in our opinion, would be to make them obtain privileges to mine, without which a heavy penalty should be attached to those attempting to work, or else the law should be repealed, and they have full freedom to work the mines. We do not think justice is meted out to foreigners, because there are many who never pay the tax, and it is a disgrace to any Legislature to place such specimens of humanity as Chinamen on an equality with white people of intelligent countries, from whose blood ours flow. Another objection is the chances for collectors making a big thing out of it, should they feel disposed to act unfaithfully towards the interest of the State and county. A writer to the Douglas City "Gazette," Trinity county, mentions its abuses as follows:

The practical working of the present law is about this: the Tax Collector makes the tour of his county once a month, at which time all transitory persons subject to miners license, are required to pay, but vast numbers, especially where they are in companies of from five to forty, which is not uncommon, they are permitted to run along two, three or four months, where their operations are anythin like extensive or permanent. At the end of this time they will be called upon for all their back taxes, while each one is furnished with only a single receipt, certifying the payment of taxes up to date. Now here is an amount in the hands of the Tax Collector of four, eight, or twelve follars, as the case may be, from each man, more than he ever rendered an account of, for the Collector is only charged four dollars for each receipt disposed of and renders his account for the same, while he has collected in many instances eight, twelve and sixteen dollars upon a single receipt. The law seems to have been drawn so as if not to actually offer a premium for swindling, at least to hold out great inducements. We are continually annoyed and injured by the ever presence of this one-headed Mongolian race, without even receiving the small pitance of benefit that the law intended for us. I hope that the subject will receive the earnest attention of the people and

through them the coming Legislature, until some modification of the law is made. The first step toward a remedy will be to stop the collecting of back licenses, and another seems to be to have a person appointed by law to take up the receipts each month, so as to guard against the changing of dates and giving them out again. And still another step would be to have the receipts printed upon stamped paper or a certain character to guard against forgery. These better suggestions are only thrown out for abler minds to mould into form.

YREKA JOURNAL, April 16, 1862

The Chinese Tax: The bill taxing Chinamen \$2.50 a month, as a police tax for all other business outside of mining, will yield a revenue of \$1,000 per month in this county, with a prospect of increase during the summer.

Hawkinsville: A Portugese company are mining about 200 yards north of the main street, making from \$20 to \$30 a day to the hand. All about the town miners are doing well, and the place seems to be resurrected to life.

SEMI-WEEKLY JOURNAL June 11, 1862

Chinese Police tax: The Chinese in this place pay the \$2.50 per month police tax under protest, and intend to contest its constitutionality.

SEMI-WEEKLY JOURNAL June 14, 1862

John Chinaman No Sabe: John thinks he has to pay too much taxes. He says, me pay poll tax and me no vote. Me pay hospital tax and me no get in hospital. Then me pay police tax and then policeman no come around--tell me he want more two dollar hop. Then me pay four dollar miner tax, and sometimes me no make thlee dollar. Then taxee men say me pay war tax, by d--n me no wantee pay war tax, me no fightee--Melican man make war, he pay for fightee. Sometimes me washee two shirts, Melican man no pay me, but me pay taxee allee same.

SEMI-WEEKLY JOURNAL June 21, 1862

Police tax: Collector Sleeper has a jolly time collecting police tax of China women. All the satisfaction he gets is "me no pay two dollar hop." The possibility of finding property to sell for it causes the Collector to exclaim, "me no sabe."

CHINESE FREE MASON'S FUNERAL

SEMI-WEEKLY JOURNAL, May 24, 1862:

Our attention was attracted yesterday afternoon by martial music. Looking out of our sanctum window we beheld a long train of Chinamen coming down Miner Street, with a hearse in front, and just behind a band of music consisting of a fife and two drums, followed by Chinamen with banners and the flag of their country. On inquiring what was up, was informed that a Chinese Free Mason had died on Humbug, and had been brought over here to be interred. Having our curiosity excited we fell in the wake of the train with a lot of equally curious "melican" men, and walked up to the city cemetery to witness the ceremonies. After arriving at the grave, the coffin was placed over it, and then came the roast pig, chicken, boiled eggs, biscuit baked and unbaked, next came the chief mourner, and two sub-mourners. The chief mourner was dressed in white, the subs in their usual dress. They all fell down at the foot of the grave and commenced to cry, the chief much the louder of the three. After this the brothers of the lodge knelt down at the foot of the grave, two at a time, and kissed the ground two or three times. One of the bretheren then sings a song, and all we could understand was--"and his soul goes marching on." This being over, cigars were passed around to everybody who would partake, followed by brandy, which seemed to be the best part of the whole performance to the "melicans." The City Sexton looked very good natured all the while, as he was posted on the cigar and brandy arrangement. The closing scene was the burning up of all the papers and wax candles. The band then struck a good lively tune, and we all went marching home. The fifer tried to play Yankee Doodle, but broke down, to the great chagrin of the drummers. The bass drum was played according to note, and the band discoursed a variety of lively airs, including Dixie, as a premonition of a similar fate for its followers.

#####

MODOC RANCHERIE

SEMI-WEEKLY JOURNAL, June 21, 1862. The Modoc Rancherie, on the hill east of town, is quite a large gathering. They have upwards of two tons of flour, which they bought in town. They have also about 100 head of horses, some of which are good stock, worth at least \$150 or \$200.

Our thanks to Herb Sloop for the following newspaper article of Nov. 22, 1923:

CHINATOWN BLAZE MAY BRING PARK

Celestials with not much on routed by flames which mark sixth disaster. Pandemonium reigned last Thursday night when Yreka's Chinatown was partially destroyed by fire. Celestials, garbed in but little more than that with which they came into the world, ran hither and thither, on highways and byways, some carrying oriental rugs under their arms, others blankets, other medallions and sundry other things of import in the existence of the race. Flames broke out shortly after 6 o'clock and were presumed to have been caused by a neglected oil heater.

The conflagration had enveloped one building and the flames were leaping hundreds of feet high before an alarm was given, but volunteer firemen were not long in getting on the scene and in a comparatively short time the fire was under control. Five buildings were burned, and the joss house somewhat damaged.

The blaze was one of the most spectacular ever seen in Yreka. There was but little wind, otherwise it is probable that the fire would have swept Chinatown clean and spread to other buildings. The flames arose to the tops of the massive willows in front of the row, and a crown fire of a few minutes' duration resulted.

Fifth Chinatown fire. The fire was the fifth that has been visited upon the Chinese in Yreka. Shortly after the gold rush of 1851 Chinese by the hundreds came to Yreka, establishing their first quarters in typical oriental fashion northward from Second and Miner streets. On July 4, 1871, some boys threw firecrackers into one of the buildings, and a fire which burned out Yreka's business section resulted. Most of the town's folks were at a celebration at Hawkinsville and there were but few here to combat the flames.

The Chinese next established their quarters on Main between Center and Miner. About 35 years ago this site was leveled by flames, was rebuilt and a few years later burned again. Business men insisted that the next Chinatown should be constructed at a safer distance from the commercial center of the city, and the site across Yreka creek was chosen.

Flood gets them. In 1891 Yreka creek a section of the town was swept away by flood and in 1895 several of the buildings were burned down. But from then on until Thursday night Chinatown rested in peace excepting the interference of Sheriff A. S. Calkins, who has raided several of the houses the last few years.

There is talk of buying Chinatown and converting it into a

city park, but just what the outcome of the movement will be is considered a conjecturable matter even by the most ardent advocates. Maybe the fire of last Thursday night will make it more readily available for that purpose.

####

SINGULAR PHENOMENA ON GOOSE LAKE from the Yreka Weekly Union of Oct. 28, 1865.

By Messrs. Whittle and Jenks, just in from Surprise Valley, we learn that on the morning of the earthquake at San Francisco, Goose Lake, situate a short distance this side of the summit of the Nevada range of mountains, near the northern line of California, was covered with a great number of water-spouts, rising at the same time and at short distances from each other over the whole surface of the lake, presenting much of the appearance of an immense school of whales, "blowing." The fact with its relation--the earthquake, then unknown to Whittle and Jenks--extends the field of investigation to the scientific.

####

The Siskiyou News of April 19, 1906. (At the end of an article about five thousand lives lost in the earthquake and fire at San Francisco.) The earthquake revives the recent rumors that Mount Shasta is showing slight signs of activity once more, after a sleep of centuries. William Frost of Gazelle was in town Saturday and declared that on the third of April smoke issued from the top of Shasta all day and drifted toward the south, forming a cloud that was unmistakably smoke. It attracted general attention and was much discussed by the spectators.

Is Mt. Shasta getting ready to contest honors with Vesuvius?

####

Our thanks to Edna Kankas for the following:

HAWKINS FAMILY: PIONEER ANCESTORS of NANCY WELLMAN BALES, REGENT OF MAJOR PEARSON C. READING CHAPTER, DAUGHTERS OF THE AMERICAN REVOLUTION.

Permission to use in our bulletin was granted by Nancy Wellman Bales, 2186 Medo Vale, Redding, California 96001.

Submitted by Blanche Dogget Heflin.

California Pioneer Family:

1. Pioneer: Augustine Hawkins b 21 Sep 1825 Morgan Co., Ohio. d 4 Mar 1908 Yreka, Siskiyou County, Calif. buried: Yreka, CA.
2. His father: Col. William Hawkins b 18 Aug. Washington Co., PA. m Chandlersville, Muskingum Co., Ohio, probably 1821; d 28 Aug. 1868 Buried: McConnelsville, Ohio.
3. His mother: Ursula (Anderson) Blaine (Mrs. Joseph) b 8 Nov. 1792 Sussex Co., N. J. d 3 Nov. 1873
4. Pioneer wife: Bridget McDonald m 4 Feb. 1862 Yreka, CA. b 15 Aug. 1835 Ireland. d 3 Jan. 1903, Yreka, CA. Buried: Yreka, CA.
5. Her father: Unknown.
6. Her mother: Unknown
7. Pioneer's brothers and sisters:
 - A. Cornelia Hawkins b 21 May, 1823 d 29 Feb. 1844 m Judge Wm. Lawrence of Befflontain, Ohio.
 - B. Ameda Hawkins b 15 Oct. 1828 d 12 May 1852
 - C. Cyril Hawkins b 6 May 1832 d 22 June 1902 McConnelsville, Ohio m Sarah M. Pinkerton 4 Sept 1866 McConnelsville, Ohio. The Hon. Cyril Hawkins at age 17 quit school, became an auditor and saved \$150.00 and with several friends, crossed the plains to California. He went with his brother Augustine (Austin) to Shasta City and then to Weaverville where he prospected. He then went to Sacramento, and in 1853 became solicitor and collecting agent of Democratic State Journal. Then he was given an office with Sec. of State 1859---School commisidioner of Sacramento and Enrolling Clerk of state senate. He assisted in raising volunteers for the Civil War and was elected captain of Co. F. In 1863 he went to Nevada for quartz mining, appointed County Clerk, then elected a member of the first State Legislature, the territory being a state then. He voted for ratification of the 13th amendment. He returned to Ohio and became a noted politician.
8. Pioneer's wife's brothers and sisters:

Bridget McDonald was orphaned when quite small and reared by an uncle and aunt in County Monaghan, Ireland. She was Scotch Irish. At about 15 years of age her relatives wanted her to marry a man of means many years older, and she wrote a cousin in New York who sent her the fare to come to

America. She worked in a hotel mending linen until being hired by a doctor's wife to help her take the trip to California. She went to San Francisco and worked there. Then she was again hired to help in a trip to Yreka where she intended to stay for a short time and return to San Francisco, but she went with friends to watch a parade from the balcony of the old Franco-American Hotel and was seen by Austin Hawkins who was riding by. He looked up and decided to marry her then and there. As far as is known there were no brothers and sisters.

9. Children, grandchildren and great grandchildren of the pioneer couple:

A. William Hawkins b 2 Apr. 1863 Humbug, California, d 1940 Los Vegas, Nevada. He was a wellknown businessman of Las Vegas starting a store in a tent in 1905. He was director of the First Bank of Las Vegas and second Vice-president; was County Commissioner of Lincoln County in 1906, commissioner of Clark County in 1909. He was mayor of Las Vegas for two terms; charter member of Las Vegas Lodge # 32 F & A. M. He was a 32nd degree Mason. He had no children.

B. Robert DeWitt Hawkins b 14 Oct. 1868 d 25 Dec 1915 m 25 June 1899 Jessie Root.

a. Gladys Hawkins b 3 Dec 1901 d 5 Nov 1968 m 13 Aug 1922 John Jansen(1) John Robert Jansen b 1928

(2) William Richard Jansen b 1946

b. Irene C. Hawkins b 10 Sept. 1900 m # 1 Howard Hall, m # 2 Henry Phelan (d WW II)

C. Cornelia Hawkins b 7 Aug 1866 d Dec 1938 m Mr. Harmon. No children.

D. Nellie Hawkins b 4 May 1873 d Yreka, California 28 July 1963. She was postmistress of Yreka for 25 years. Unmarried.

E. Norton Augustus Hawkins b 14 July 1864 Yreka, California m Ashland, Oregon 22 Nov 1903 Ella Burrows.

a. Elizabeth Burrows Hawkins b 8 Sept 1904 Seattle, Washington, m Berkeley, California 27 Feb. 1925 George Wellman.

(1) Nancy Wellman b 22 Jan 1926 Berkeley, Calif. m 15 Feb 1947 Chico, Calif. Russel Bales.

(a) Elizabeth Lynn Bales b 21 June 1949 Chico, Calif. m _____ Taft.

(b) Margaret Ann Bales b 25 May 1951 Chico, Calif. m Robert Pauley.

i. Aaron Russell Pauley b Sept 1972

ii. Daughter

(2) Marjorie Ann Wellman b 12 Sept 1927 Berkeley, Calif. m James E. McLain

a. Earl Perry McLain b 7 Apr 1948 Seattle, Washington

b. Brian Lee McLain b 18 May 1950 Chico, California

INTERESTING FACTS ON LIFE OF PIONEER AUGUSTINE HAWKINS

Augustine (Austin) Hawkins was born in Morgan County, Ohio. In 1849 he came to California and mined in Shasta and Trinity Counties for several years, then joined the rush to Humboldt diggings in Siskiyou County, and then moved to Yreka, California. In his 34th year, 1859, he was elected Assessor of Siskiyou County on the Democratic ticket. He was at one time County Clerk and held positions as deputy in a number of county offices. Under Governor Irwin he was appointed Secretary of the State Harbor Commission. He also held the position of postmaster at Yreka for one term.

He was a charter member of Western Star Lodge # 1 at Old Shasta, the first Masonic body in California. He had become a Master Mason in Ohio. He was recognized as probably having lived more years as a Mason in the State of California than any one else at the time of his death.

He was the son of William and Ursula Hawkins. Ursula had two children by her first husband, Joseph Blain: Joseph and William. Mr. Blain was a boatman in Ohio where they boated produce, etc. to New Orleans and on one of his trips he took his son Joseph and neither one was ever seen or heard of afterwards. She was only between sixteen and seventeen when Joseph was born. She married William Hawkins afterwards, about 1821.

Ursula (Anderson) Hawkins was the daughter of Augustine Anderson, who as a young man, came to America in the ship California and landed at Amboy. He was a soldier in the Revolutionary War for over seven years and would have gotten \$40,000.00 if he had stayed 24 hours longer. He went home with his friend Richard Edsall and married his sister Hannah Edsall. She was Holland Dutch. They then returned to the United States where he was a tailor by trade.

** Original record has reason for cancellation and some death dates.

MR. JAMES R. CUMMING'S ANCESTRAL NUMBERING SYSTEM

Mr. James R. Cumming is a professional genealogist. His address is: Box 2156, Seattle, Washington 98111.

Every male parent is twice the number of the child in your lineage.

Every female parent is twice-plus-one of the child's number.

Every child, male (even number) or female, (odd number) is one half of the number of the male parent.

Every surname in your lineage starts with an odd number (female) and is extended through even numbers (males) to its earliest known given name. Example: 7, 14, 28, 56, 128, etc.

Siblings of any ancestor (whole number) are represented by a capital letter, in ascending order. Example: 21A, 21B, 21C, 21D.

The ancestor (yours) in any group of siblings does not use the capital letter, but its position is maintained.

The husband of any ancestral sibling is not given a number within your lineage but can be referred to as h21A, or the husband of 21A, or the husband of "my great-grand aunt."

Children of ancestral siblings can be codified as follows:
c21A = the child of 21A, 2c21A = the second child of 21A.

Ancestral numbers should be obtained from the Pedigree Index Chart and should be applied to the family group sheets and to the page number in the lower right hand corner of each group sheet, and to the filing sequence of ancestral group sheets.

####

QUERY: Ernestyn Thompson CHARLEY, 1108 Cedar Street, Yreka, California 96097, is searching for the parents of Dr. Isaac Alexander WALTON, who was born in Gallatin, Tennessee on April 1, 1922.

Your editor will be very willing to publish queries of any kind for you concerning your family and ancestors and relatives.

GREAT REGISTER FOR GENERAL ELECTION, SEPTEMBER 30, 1879, owned
by Mrs. Alfred K. Crebbin, continued from the Winter, 1975 issue.
